

Doomsday Engine - Feature #2051

XG test suite / demo map

2015-05-14 11:56 - skyjake

Status: New	Start date: 2015-05-14
Priority: High	% Done: 0%
Assignee:	
Category: Enhancement	
Target version: Modding	
Description We need a map that tests all the features of XG in a systematic fashion. This can then act as a test suite to fix regressions, demonstrate the capabilities of XG, and offer examples to modders about how to use XG. As a test suite, the map does not need to have a coherent design or theme; the main purpose is to verify that all features of XG features are working correctly.
