### [UI] Package tags need to wrap to multiple lines

<b>Category:</b>	User experience		
<b>Target version:</b>	2.3.x		
<b>Description</b>			
<p>Addons/mods containing a larger set of descriptive tags, i.e. exceeding the usual amount of 3 to 4 tags, will have the display of tags bleed through the user interface boundaries and buttons in the Addon/MOD management dialog. This can leave tags being unreadable and unclickable (offscreen), tags bleeding through UI buttons take precedence over the button, making it difficult to actually click the 'details' and/or 'add' button.</p>
