

Doomsday Engine - Bug #2459

Incorrect Library libfluidsynth1 on Ubuntu 21.04

2021-05-04 14:18 - XavierH

Status: Closed	Start date: 2021-05-04
Priority: Normal	% Done: 0%
Assignee: Deng Team	
Category: Regression	
Target version: 2.3.x	
Description Ubuntu 21.04 uses libfluidsynth2 as a MIDI library, while DEng uses libfluidsynth1 in its control file. This leads to a broken deb database Easy Fix : <pre>dpkg-deb -R doomsday_2.3.1_amd64.deb doomsday_2.3.1 \$EDITOR doomsday_2.3.1/DEBIAN/control # fix libray version dpkg-deb -b doomsday_2.3.1 doomsday_2.3.1_amd64-fixed.deb</pre> HYH, Cheers Xavier
