Doomsday Engine - Bug #726

[1.9.0 beta6.4] Doomsday corrupts jDoom.cfg

2009-07-08 20:04 - deus-ex

Status:	Closed		**Start date:**	2009-07-08

Target version:	1.9.0-beta6			

Description

Doomsday corrupts the file jDoom.cfg, yet leaving it functional. The comment lines randomly have several characters added to their line end. The comment lines affected and the added characters vary on every run of Doomsday. My current solution to prevent this until a fix is released is to set the "read-only" attribute of the file.

___
Kind regards,

M_WriteCommented() was using strncpy() incorrectly. Fixed for beta6.5.
